Microsoft Azure portal interface showing the 'Connect' page for a virtual machine named 'IaaS-EX17-VM'.

The page displays connection settings for a Windows VM. The source machine is 'Windows' with a local IP of 106.219.183.36. The destination VM has a public IP of 172.198.57.19 and a VM port of 3389.

Connection prerequisites include checking inbound NSG rules. The 'Connect using RDP file' section shows a 'Download RDP file' button and a 'Username' field with the value 'MOHAN'.

Additional options include 'Check access', 'Edit settings', and 'More ways to connect (3)'.

Two overlapping windows on the right side of the screen.

The top window is a document titled 'IaaS experiment procedures.docx' in Protected View. It contains the following text:

↓
Your Computer

This is IaaS because Azure provides the underlying infrastructure resources:

- Compute/CPU
- Memory/RAM
- Storage
- Networking
- Virtual machine infrastructure

while you control the operating system and applications.

NOTE - IN THIS DOCUMENT I COMPLETED EXPERIMENTS 12,13,15,17

The bottom window is a ChatGPT chat interface. The chat history shows a conversation about Azure VM creation steps. The current message is:

Now go to Review + create → wait for Validation passed → Create.

The chat interface also shows a sidebar with various options like New chat, Images, Library, Plugins, Projects, Codex, and More.
